To whom this May Concern: You need to tell the NBA that they need to quit whining. They are just jealous that they never thought of anything like XM Traffic and weather. It needs to stay right where it is with no changes. We truck drivers depend on it and in the name of SAFETY. For instance my 79yr old Mother and 72yr old Aunt were traveling towards St. Louis. There was a fatality accident on 270. They were headed for that back up. I listened to XM in Michigan and called them and told them to go through town and why. With out that warning they would have had to sit for no telling how long. Neither of these ladies are in perfect health so anything could have happened plus if we know about problems we don't have to become part of the problem. It helps us out and helps law enforcement to keep the backups to a minimum. I called 2 of my local TV stations to come to my Trucker Buddy event and I wasn't important enough to even warrant a phone call. Murders and Thiefs are more important. So tell the NBA untill they can even get in the ballpark with XM go Home and quit whining XM is here to stay and so is the Traffic and weather. Thank YOU very much for your time in this matter. I'm Hot needless to say One very happy XM'R
